

AgilityHealth® Accelerate Talent Development Jump Start

Roll out AgilityHealth® for individual Agile and non-Agile roles. Accelerate the development of Agile skills by measuring individual role maturity across defined competencies.

Talent Development Roles include: Product Owner, Scrum Master/Team Facilitator, Agile Leader, Agile Coach, Enterprise Business Agility Strategist, a Custom Specific Role, if you choose and other radars.

Participants: 20-500+ individuals

Duration: 2-6 weeks (*this assumes that if you have a custom role-based radar, it is completed. This is also dependent on manager to individual ratios*)

Outcomes of this Jump Start:

- Definition of competencies for all target roles and design of radars (or leverage existing).
- Education on giving and receiving feedback and coach/manager training.
- Roll out of talent development assessments and creation of individual growth plans.
- Build the Growth Portal with self-learning resources and recommendations for each competency.
- Rollup of data across each role and development of management level improvement plans.

Jump Start Timeline:

Intended Audience: Directors, Managers, Agile Coaches, AgilityHealth Implementation Team, Team Members
